

# EPIGENETICS INSTITUTE

## SEMINAR SERIES

TALKS FROM THE SPATIAL/ARCHITECTURAL EPIGENETICS  
INTEREST GROUP

### **Gerd A. Blobel, M.D., Ph.D.**

Frank E. Weise III Professor of Pediatrics  
Co-Director, Epigenetics Institute  
The Children's Hospital of Philadelphia

**Chromatin architecture in hematopoietic cells**

### **Maya Capelson, Ph.D.**

Assistant Professor of Cell and Developmental Biology  
The Perelman School of Medicine at the  
University of Pennsylvania

**Nuclear pore complexes as scaffolds for genome  
organization and epigenetic memory**

### **Katherine C. Palozola (Zaret Lab)**

**Global Mitotic Transcription and Reactivation During Mitotic  
Exit A: A Potential Epigenetics Mechanism**

Thursday, September 14, 2017 - 4.00 PM

10-146 Smilow Center
