

# CANCER & METABOLISM

## Interest Group Meeting

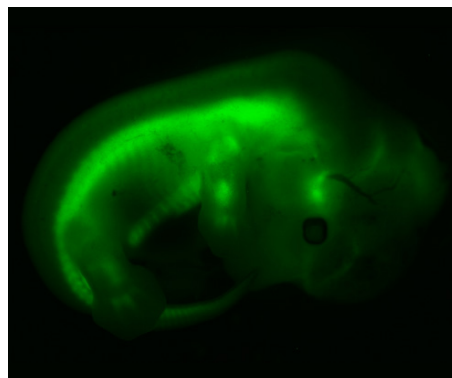

**SEPTEMBER 26, 2019**

Smilow 12 - 146 | 4 - 5:30pm  
Food provided

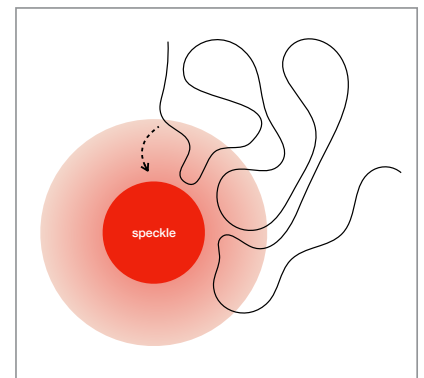

**Xuepeng Wei**  
(Marmorstein's Lab)

Molecular basis of  
acetyl-CoA production  
by ACLY

**Anthony Angueira**  
(Seale Lab)

Early B Cell Factor  
activity controls  
brown adipocyte  
developmental and  
adaptive thermogenic  
gene programs.

**Kate Alexander**  
(Berger Lab)

Respects thy neighbor:  
regulated nuclear speckle  
association and potential  
consequences for  
neighbor genes
